

**International Week/ International Days 2018
at KU Leuven Technology Campus De Nayer
12th – 16th March 2018**

Dear students,

We would like to invite you to participate in this year's International Week organized by KU Leuven and Thomas More University of Applied Sciences.

Theme of 2018: International=Digital?

Connected to this theme, technical sessions will be offered in the field of digitalization, IoT, sustainable energy, innovation, sustainable engineering, environmental protection, biotechnology, food safety, and other fields in engineering/ technology which can help the world to cope with the challenges of the future.

- Although, due to its technological focus, the International Week addresses mainly students of the Master ESM, students from the EuroMPM are welcome to join.

PARTICIPATION & FUNDING

To register for the event, please contact us via clara.decelisgrewe@fh-dortmund.de. Funding for travel and accommodation will be provided by the Project DAAD EuroPIM. Limited places available!

- **Please register until 28th February 2018.**

For more information on the event please visit also:
